

FARM OPERATIONS, UNIFIED

# YOUR WHOLE FARM, IN ONE PLACE.

Spray, labor, equipment, and compliance — logged in the field, audit-ready by default.

- ✓ Spray & re-entry tracked to the minute
- ✓ Labor, equipment & time in one shared log
- ✓ Signed compliance PDFs, generated as you work

WHAT YOU GET

# LESS PAPERWORK. MORE FIELDWORK.

FOR GROWERS

01

HARMONIZATION

## ONE OPERATION, ONE SOURCE OF TRUTH

What was sprayed, a worker's quality and warnings, the fleet's upkeep — logged once and synced to everyone. No more "did anyone write that down?"

✓ EVERYONE ALWAYS UP TO DATE

02

COMPLIANCE

## COMPLIANCE INSTANTLY, ANYTIME, ANYWHERE

An auditor calls — export signed spray records, re-entry postings, and H-2A housing logs in minutes, not a day in the filing cabinet.

✓ AUDIT-READY IN MINUTES

03

BACK OFFICE

## BACK OFFICE & PACKING HOUSE, IN STEP

Generate the custom documents your packing house asks for on the spot, and keep the farm back office current — no re-keyed forms, no chasing.

✓ NOTHING FALLS THROUGH

04

INTELLIGENCE

## ASK IDUNN ANYTHING

Plain-language answers across every spray application, worker, machine, and block you run.

✓ ANSWERS IN SECONDS

SECURE BY DESIGN

Encrypted personnel & payroll, visible only to the people you choose.

WORKS OFFLINE

Capture anywhere; it syncs when you're back in range.

EASY FOR EVERYONE

Office to field — English or Español, day one.
