FOR PACKERS & HANDLERS

01

ACCESS

OPEN A FARM, AND IT'S ALL THERE

One login reaches every grower you receive from. Open a farm and its recs, checklists, use reports, and signed documents are already filed and current.

✓ NO STACKS, NO SEARCHING

02

CONTROL

REQUEST A DOCUMENT, ON THE RECORD

Ask any linked grower for a document — they see the request on their Data screen and share the match straight back.

✓ NO MORE CHASING PAPER

03

OVERSIGHT

CLEAR TO PICK, CLEAR TO SHIP

Watch PHI clear block by block across every linked farm, two days ahead. Screen a season's chemistry against your export markets' residue limits.

✓ NOTHING FAILS AT THE BORDER

04

STANDARDS

YOUR CHECKLIST, ON EVERY FARM

Publish your own food-safety checklist to your growers as a ready-to-fill form under your name. See who adopted it, who completed it, and every finding.

✓ YOU SET THE STANDARD

SECURE DATA ROOM

Every farm confirms what it shares — your access is read-only, and logged.

TALKS TO YOUR SYSTEMS

REST API and signed webhooks push events straight into your ERP.
